<http://handhygiene.ucsfmedicalcenter.org/>

All data must be entered **by midnight** of the last day of the observation month.

UNIQUE HAND HYGIENE SITUATIONS

There are some circumstances when the hand hygiene rule (gel-in gel-out or soap & water washing) must be adapted for a task. HEIC and the department(s) jointly evaluate workflow and hand hygiene in order to determine efficiency and safety.

PATIENT CARE

HANDS-FULL TECHNIQUE:

1. Enter patient room & place items in an appropriate place in the room/environment
2. Immediately clean hands
3. Complete task
4. Clean hands upon exit

If clean items need to be removed from the room at the end of the task:

- a. Clean hands
- b. Pick up the items
- c. Exit patient room/environment

If soiled items need to be removed from the room at the end of the task:

- a. Pick up the items
- b. Exit patient room/environment with soiled items
- c. Clean hands upon completion

PATIENT CARE

30 SECOND RULE:

1. Allow 30 seconds before/after entry or exit for the person to complete hand hygiene
2. Hand hygiene at room exit also counts as compliant for entry to the next room when then exit/entry is done within 30 seconds

PATIENT CARE

GLOVE USE:

1. Clean hands before donning gloves
2. Remove gloves and clean hands when task is complete

FOOD & NUTRITION SERVICE (FNS)

FOOD TRAY DELIVERY (CLEAN TRAYS):

1. Clean hands
2. Pick up tray
3. Walk into patient room/environment
4. Place tray on over-bed table or as directed by patient/visitor or staff
5. Clean hands upon exit and en route to tray cart
6. Pick up the next tray
7. Repeat until all trays are delivered

FOOD TRAY PICK-UP (DIRTY TRAYS):

1. Clean hands upon entry to patient room/environment
2. Pick up used tray
3. Place tray in the cart
4. Clean hands and repeat until all the trays have been collected.

Glove use: Assess the need to wear gloves before picking up the tray.

- a. Clean hands
- b. Don gloves if the tray is visibly soiled
- c. Pick up tray and place in cart
- d. Remove gloves and clean hands upon entering next room

If the tray is visibly soiled with blood or body fluids, report incident to nursing staff. Nursing staff will remove the blood or body fluids from the tray. Do not throw away flatware, china etc.

1. Clean hands
2. Don gloves
3. Pick-up tray and place in cart
4. Remove gloves and clean hands
5. Report to supervisor as per FNS policy

HOSPITALITY
