## HAND HYGIENE BEFORE & AFTER GLOVE USE; REMOVE GLOVES AFTER EACH PATIENT

- 30 seconds before or after entry and before or after exit unless you touch the patient or patient's environment first.
- Hand hygiene at exit from one area also counts as an entry into the next room when exit/ entry is done within 30 seconds.
- Hand hygiene is required regardless of whether you touch the patient.
- Hand hygiene requirement applies to empty space, clean or dirty.
